PROJECT SCOPE STATEMENT	
Project Name	Crab

Project Deliverables	**Detailed Description**
View Result	Users can take photos or upload photos in the application and can see their results. Users will be able to see all the results they had in the past as well. Users can view their old result and can compare with the current result to see if there are any changes or updates that need to be mentioned.

Project Exclusions
This website will not allow users to detect other kinds of cancer nor other types of skin disease. This project will also not give any direct instructions to users regarding what to do next, instead, it will only recommend the users to take actions based on the AI analyzed result.
